

THE RIDDLE EFFECT

“Just as ripples
spread out
when a single
pebble is
dropped into
water, the
actions of
individuals
can have
far-reaching
effects.”

-Dalai Lama

An estimated 1,000 people came together for the 2023 Hamilton Center Diversity Walk to show their support of diversity, equity and inclusion in the community.

MISSION

Hamilton Center exists to provide quality healthcare, wellness and human development services to the community.

VISION

Our vision is to advance excellence in healthcare through compassion, customer responsiveness, innovation and flexibility.

DIVERSITY STATEMENT

We respect and support all employees and want to maximize each individual's unique contribution to the organization which leads to discovering new and innovative business solutions to improve service delivery and quality of life of those served.

CORE VALUES

- 1 We believe in the worth of all people and believe that they should be treated with dignity, respect, and compassion.
- 2 We work to improve the quality of life of those we serve and the communities in which we live.
- 3 We believe in least restrictive care, which allows people to live as independently as possible.
- 4 We believe treatment works, recovery is possible and quality of life can be improved.
- 5 We believe in working with and supporting other stakeholders in the community and working with them collaboratively to provide a holistic team approach to care.
- 6 We strive to find the resources to serve people regardless of payer source.
- 7 We believe that both integrated healthcare and primary and behavioral healthcare are essential for positive health outcomes and cost-effective care.
- 8 We value our employees and the unique contributions they make to the organization.

MESSAGE FROM THE PRESIDENT & CEO

I have been working in community mental health my entire professional career and have recently seen enormous momentum for system change, funding transformation, and alignment with State and Federal initiatives. While change can be challenging at times, I see tremendous opportunity to increase access to services, improve integration of primary and behavioral healthcare, secure sustainable funding and continue to be a safety net for those underserved.

There are many reasons for my optimism, but leading the way is Senate Bill 1, Behavioral Health Matters, sponsored by Rep. Ann Vermilion and 56 other members of the House of Representatives. Seldom do we have such agreement from a broad range of constituents to support a bill. Consumer organizations, provider organizations, and the State of Indiana all came together to advocate, provide testimony and lend their support to this bill which has the ability to pave the way for system transformation - expanding community mental health through Certified Community Behavioral Health Clinics (CCBHC), establishing an easy to remember toll-free help line to provide resources/referral (988) and focusing on crisis stabilization and mobile crisis initiatives, among other items.

While there was no funding attached to the bill, subsequent bills allocated money towards these initiatives. While there is consensus with the notion that the funding does not match the need or program sustainability long term, it is a start - a strong start.

Hamilton Center is prepared for the changes and opportunities presented. We have been operating a federally funded CCBHC grant for three years and have established 24-hour/7-day a week crisis services including mobile crisis services. It is our hope the momentum will continue and CCBHC

Lori Thompson, Natasha Newcomb, Molly Funk and Katie Snyder enjoy a beautiful day at Hamilton Center's "We Live" back to school event at Rose Park in Terre Haute.

services will move from grant funding to sustainable reimbursement. Initial evaluation of outcomes from Indiana have shown CCBHC programs have been associated with a 73% reduction of depression and a 93% reduction of consumers hospitalized for mental health reasons. There are reasons to be optimistic.

The theme of this annual report, *The Ripple Effect*, dovetails very appropriately with understanding that behavioral health matters. The actions of one can affect so many. When one of our clinicians works with a consumer in need, multiple people are impacted. That person's entire support system is touched; families heal and entire communities become healthier. Thank you to everyone who understands and supports this premise each day. Behavioral health matters.

With appreciation,

A handwritten signature in black ink, reading "Melvin L. Burks".

Melvin L. Burks, President & CEO

FISCAL YEAR HIGHLIGHTS

Received a \$3.99 million four year Substance Abuse and Mental Health Services Administration (SAMHSA) Certified Community Behavioral Health Clinic (CCBHC) Improvement and Advancement Grant.

Received a \$25,000 Workforce Innovations in Integrated Care Grant from the National Council on Mental Wellbeing.

Received a two year Crisis Receiving and Stabilization Services Grant from the Indiana Department of Mental Health and Addiction (DMHA).

Expanded primary care mobile services to all of Putnam and Vigo Counties through Grace Clinic Health Professional, Hamilton Center's Federal Qualified Health Center Look-Alike.

Began providing vaccinations to pediatric patients through Grace Clinic Health Professional.

Completed the fourth year of the DMHA EBP School Based Grant, which expanded school-based prevention services for youth and increased referral pathways for intervention services.

Awarded the Frederick R. Benson Trust funding to enhance programming for consumers in 24-hour services including the inpatient unit, supervised group homes and transitional living. Funding was used to provide opportunities to participate in community-based events and activities.

Received a three year accreditation for the Clubhouse program (Infinity House) which demonstrates the program's adherence to all standards in the categories of membership, relationships, space, work-ordered-day, employment, education, functions of the House and funding governance and administration.

Signed a memorandum of understanding with the North Vermillion School Corporation, North Central Parke School Corporation, and Greencastle School Corporation for the first time. These partnerships assist Hamilton Center in serving students in need of services.

Received a United Way grant to install seven little lending libraries in Clay, Parke, Sullivan, Vigo, and Vermillion counties.

Spent the year preparing for the July 1, 2023 "go live" implementation of a new electronic medical record - echoVantage.

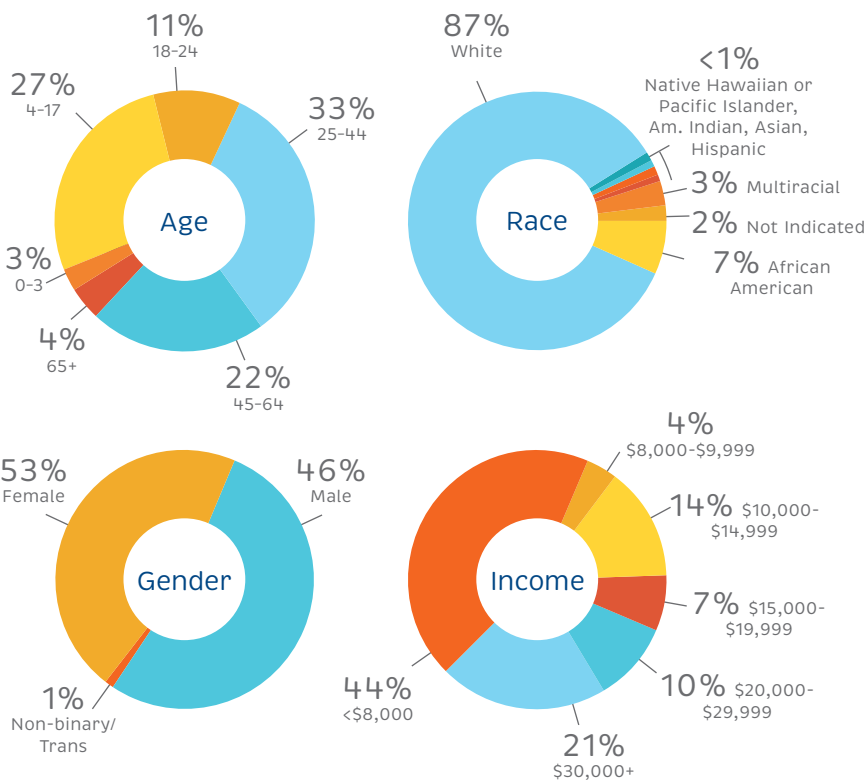

Renamed Hamilton Center's Vigo County addiction program to the Stevens Center for Addiction Recovery, in memory of a dedicated 46-year employee, respected physician, community leader, cherished mentor, advocate and beloved educator - Randall Lee Stevens, MD.

Completed the first full year of hosting a free Naloxone box at the Stevens Center for Addiction Recovery, Terre Haute. 175 Naloxone kits were acquired by the general public. Naloxone, also referred to by the brand name Narcan, is used to reverse an opioid overdose.

Melvin L. Burks, President & CEO of Hamilton Center, reflects on the immeasurable impact Dr. Randy Stevens had on the organization and community.

- 1 Generalized Anxiety Disorder
- 2 Major Depressive Disorder
- 3 Posttraumatic Stress Disorder

Grace Clinic staff, Susan Leturgez, Daphne Session and Robin Corrigan show their support of Mental Health Awareness Month in May 2023.

DEAR SUPPORTERS,

Since inception, Hamilton Center Foundation has raised close to \$450,000 from community members who understand and appreciate the need to ensure a strong mental health system in central and west central Indiana. This, coupled with our Board of Directors' strategic management of investments, has permitted the Foundation to grant over \$2 million to Hamilton Center for enhanced programs and services. This past fiscal year, that included matching funds raised from Hamilton Center's Sheriff's Shootout Golf Classic which in total raised over \$80,000 for children's services.

According to the National Institute of Mental Health, it is estimated that more than one in five adults live with a mental illness, which represents close to 23% of all US adults. For the adolescent population, it is almost double that. Studies show that not even half of those affected receive mental health treatment.

It is critical that we continue to work together to reduce the stigma associated with mental illness, advocate

for improved access to services and appropriately fund critical programs and services that save lives.

Join me in supporting mental health services in our community. Enclosed is a pledge envelope, or go to www.hamiltoncenterfoundation.org to contribute. We are grateful for your continued interest and support.

In appreciation,

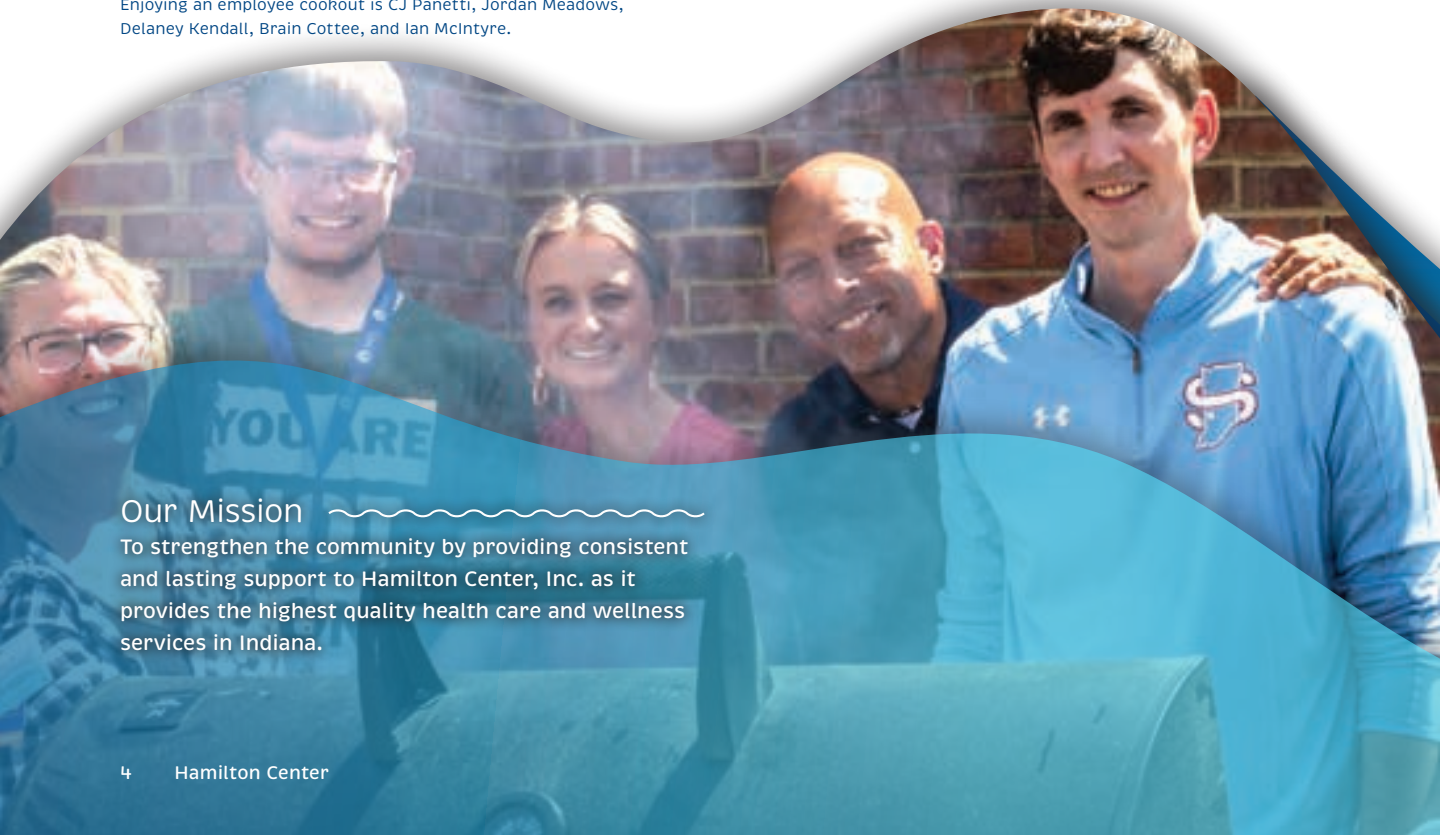

Bob Rhodes

Primary Care Services Expand

HAMILTON CENTER

ADDS MOBILE GRACE

Grace Clinic Health Professional, the primary care clinic operated by Hamilton Center, Inc. and designated Federal Qualified Health Center Look-Alike, continued its expansion including boarding the geographic area of Mobile Grace and welcoming a new team of Nurse Practitioners.

First opened in 2019, the Clinic operates offices in both Vigo and Putnam counties. Comprehensive medical care, immunizations, laboratory services, and mental health services are offered, and referrals can be made to other specialists. Services are targeted to Hamilton Center consumers currently receiving behavioral health and addiction services as well as the general public. Medical care is offered to all ages through a sliding fee scale based on federal poverty

guidelines. No one will be turned away for inability to pay. Patients who do not have insurance can access a clinic navigator to assist in finding a health plan.

In addition, a mobile clinic, Mobile Grace, is available to travel to community sites where primary healthcare is needed. The medically equipped mobile vehicle reduces obstacles many people experience with lack of transportation and access to medical care. The mobile clinic will provide health screenings, primary medical care, and preventative care to children and adults in Putnam and Vigo counties.

A medical director, three nurse practitioners and several nurses make up the medical staff at the clinic. For additional information call (812) 231-8377, or go to www.mygraceclinic.org.

Hamilton Center offers primary healthcare services through Grace Clinic Health Professional in Vigo and Putnam counties.
